- ✔ Wall hanging type. With the hanging hole, it can installed on the wall to or free stand on the table.
- ✔ Application: families, factories, offices, hotels, hospitals, laboratory, theaters and audio systems, etc.

Technical Parameters:

The Sound Level Meter is versatile device for measuring sound intensity in an acoustic environment-loud or soft; high pitched, low-pitched; inter-mittent or continuous. This meter can be used in measuring noise of various occasions and appliances such as factory, office, home, traffic route, acoustics, air-conditioner refrigerator, etc. You can test surround sound system to see exactly how much sound each to see if any adjustments need to be done.

- Model SW-525A
- Measurement Range Resolution
- Accurac ± 1.5 dB
- Frequency Response Range 31.5Hz~8.5KHz
- Frequency Weighting A
- Response Fast
- Resolution 0.1dB (<100dB), 1dB (>100dB)
- Alarm Reminder
- Alarm Output
- Power Supply DC5V 1A micro USB
- Product Size (appr.) 210 * 130 * 28mm / 8.3 * 5.1 * 1.1inch
- Package Weight(appr.) 588g
